

How to make a cure for fever

Do you want to know how to cure someone burning with fever? This mixture will ensure a speedy recovery.

You will need

fresh, green leaves

long, stringy roots

rough bark

a large pot

What to do

1. First, collect leaves, roots and bark from the forest.
 2. Then, chop the leaves, cut the roots and grate the bark into small chunks.
 3. Next, carefully put all the ingredients into a pot of boiling water and mix together.
 4. When the pot is boiling make sure that you are stirring and chanting.
 5. Remove the pot from the fire and allow the mixture to cool a little.
 6. Finally, pour the warm potion gently into the patient's mouth.
 7. You should find that if you wait overnight the fever will have gone.
